Brangus females will sell first, followed by Santa Gertrudis

Lunch immediately following the sale

All events are at the Quail Valley Sale Facility
17761 County Highway 26 | Blountsville, AL

Welcome!

Angie and I would like to thank you for your interest in this year's Quail Valley Farms' Annual Brangus and Santa Gertrudis Mature Cow Dispersal and Invitational Elite Female Sales. Our crew has done a magnificent job with our mature cows and Elite heifers that we are offering. Please know Quail Valley Farms, American Cattle Enterprise, and Wiley Ranch will offer every registered purebred cow six years of age or older in one of our sales this year and for ever more. We do not hold back donors or any production female except maybe a partnership or recently purchased animal. We feel this gives our customers the chance to select our proven cows that are in the heart of their life and are just being identified and production proven. With that said, you can buy with confidence that these cows are still here because they have worked for us and you are getting everything.

Also, this year we are offering three proven herd sires in our Friday sale. These sires are in the heart of their life and are considered at top AI sires in for both breeds respectively. We think the offering of these proven sires is very exciting and we look forward assisting continued marketing of their genetics across the Country and World if the new owners see fit.

As far as the Elite sale, Quail Valley Farms is extremely humbled by what this annual "Global Sale Event" has become for both purebred breeds of cattle. With that said, the Elite female sales for both breeds have taken on something way more than just a event. They have become an offering of some of the most "cutting edge" Brangus and Santa Gertrudis cattle and genetics of both breeds respectively in the United States and the World.

We want to give a special thank you to all the consigners for their hard work and commitment in preparing their consignments ready and reported to us in a timely, professional manner. Our motto behind this sale is "everyone is invited to consign". We just ask that they make their selection as being considered BREED ELITE and READY TO SALE. We think you will find that every consignment in this year's sales reflect those criteria perfectly.

We invite you to view our website at www.acebrangus.com or www.acesantagertrudis.com to view the videos of each lot before the sale. The sale will be broadcast on DVAuction.com both days. If we can help you with anything, please don't hesitate to reach out to me or one of the crew.

See you in Alabama,
Ricky Cleveland
Quail Valley Farms
American Cattle Enterprise

Watch & bid online for FREE at **DVAuction**
Broadcasting Real-Time Auctions

Can't make the sale? Bid from home with DV Auction's "real-time" internet bidding service!

Buying online is as easy as 1,2,3...

1. Create an account at www.dvauction.com under the "register" tab
2. Apply for bidding approval by clicking on the "details" tab at least 24 hours prior to the auction-a DV representative will notify you once you have been approved
3. Tune in for the sale and make your purchases!

After the sale, contact the sale manager or owner to arrange transportation and payment. **High speed internet** is required for successful bidding-be sure to check the lag-time monitor in the top left corner to ensure real-time broadcasts.

Proxy Bidding-if you can't make time to watch the sale, register a proxy bid and let our system represent your bid while you're away. Look for the "proxy bid" tab on the auction listing, and fill in your maximum bids. We'll handle the rest!

Having troubles? During the auction, you can type a message to the operator at any time for assistance. Our full-time support team can also always be reached at (402) 474-5557.

Lot 1 - BWCC MS HOT SHOT 10G17

10G17 is one of the most exciting young proven donors in the Brangus breed today. She has already produced herd sires in the Mound Creek, Herndon Farms and Saddle Hill programs, including the lead off brothers that sold in the HF sale this last Fall, as well as the \$30,000 herd sire MC Papillon 10K12 that sold to Thomas Soileau and Alan Stewart in the Spring 23' Mound Creek sale. Tracy Holbert was projecting 10G17 to be one of his promising young donors for Blackwater Cattle Company when we purchased the herd.

10G17 ranks in the top 15% or better for 11 EPD traits and indexes. With that said, her desirable trait balance is incredible ranking in the top 15% or better for 5 of the 6 breed indexes. 10G17's dam 10E72 also sells in the sale as LOT 31. 10G17 has been at the donor facility and was left open for her time there on purpose. Returning from the ET facility she has been running with both Triple Crown 416J39 and Final Time 313H2 from 4/1/23 until sale time. A pregnancy blood test will be conducted before the sale.

Lot 2 - MS SALACOA CARCASS DSN 406E

The top 1% of the top 1% of the top 1% of the cows in the breed can get credit for producing a \$145,000 herd sire. With that said, 406E has done just that in being the natural dam and raising her son ACE OF SPADES 406J that sold in this past QVF Fall sale to Cavender Ranches and FENCO for the record setting price.

406E is an own daughter of the productive TTR A5051 donor who is owned by Phillips Ranch. TTR A5051 ranks as the #1 %IMF EPD registered Brangus/UB animal in the entire breed. With that said, 406E herself is the #3 ranked %IMF cow in the Brangus breed. 406E has been at the donor facility and was left open for her time there on purpose. Returning from the ET facility she has been running with both Triple Crown 416J39 and Final Time 313H2 from 4/1/23 until sale time. A pregnancy blood test will be conducted before the sale.

AI'd 5/23/23 to MC Sho Time 313H30 (R10475474).
 23E41 is a bull producer! She has produced and raised three sons naturally. Her latest son 23J92 offered sold to Billy Estrada (Mexico) in the Spring 23' Wiley Ranch bull sale for \$7,000. In the 22' Wiley Spring Bull Sale her AI sired son 23H75 sold to Bill Cochran for \$5,550. Her first son 23G32 sold in the SVF Fall sale for \$6,000 to Paxton King.

23E41 post a stellar set of EPDs and indexes ranking in the top 35% for 12 including a top 25% Milk, REA and 10% BW. With that said, she has proven she will match with any bull in the breed to make a very marketable offspring to market. She presents a very nice Cross Fit bull calf at her side for this sale. A.I.'d to the \$2,000 per straw-Sho Time 313H30.

DDPC

PE to BWCC Hot Shot 192D31 (UB10349294) 12/28/22-5/15/23.

803D13 has a tremendous phenotype. She is an own daughter of the AI leading sire BWCC Big Town 192B16. We have sold one son in a past bull sale for \$4,250 and one daughter is retained in the herd. 803D13 received an embryo instead of AI because it was decided to rather put embryos in for the 21 Fall breeding season for all of our Fall calving registered Brangus cows.

DDF
487X15 has had 11 natural calves in her 13 year life. With that said, she is the maternal great granddam of the exciting young "chart blowing" herd sire ACE Prime One 487J that sold for \$40,000 in this past Spring Wiley Ranch Bull Sale Pineview Farms. Her prolific fertility and longevity makes her worth IVF flushing alone.

803G5 is a very nice productive young Atlanta 488Z sired female with a lot of future in her. Her EPDs are very balanced from BW to YW to REA and Milk. Her first natural son sold as a yearling in last Falls bull sale as a yearling to KL Bar Ranch-Okeechobee, Florida.

803H16 is a second calf cow that has a huge future. She has no holes in her EPD and index profile. She post a top 10% IMF and top 15% SC and REA. She shouldn't be in this sale as just a 3 year old, but happened to be in a pasture where a lot of sale selections were coming from and just got added to the spread sheet. A REAL BUYING OPPORTUNITY.

889G60's son 889K2 just scanned and blew the charts off scanning a 1.25 REA/CWT and a 6.76 %IMF. He will sell this Fall in the QVF bull sale. 889G60 is sired by the MC John Wayne 165N3 "Tank". Blackwater was stepping back to the well to produce females. Tank daughters were and are the base of a lot of Brangus programs. 889G60 is a maternal sister to the syndicated herd sire BWCC Southern Comfort 889A.

Lot 86 - QVF PR EMPOWER 30G16

SELLING FULL POSSESSION AND 2/3's SEMEN INTEREST AND 1,000 UNITS OF SEMEN. QUAIL VALLEY FARMS OWNS 1/3 SEMEN MARKETING INTEREST.

Very few sale opportunities come up like the offering of proven herd sire QVF Empower 30G16. Pennridge Ranch has decided to sell their interest in this very exciting Brangus breed leading AI herd sire while he is just approaching his prime. Recently in the Phillips Ranch female sale the Brangus breed saw a "run away" showing of demand for Empower 30G16 daughters averaging over \$15,000. In this ELITE SALE one will find a tremendous of daughters being offered as well that should not back up to any sire group for sure!

With the current production that is being seen by this great young herd sire, it is not short to say that QVF Empower 30G16's dam the immortal T3 Three D 30D, currently owned by Herndon Farms and his "breed changing" sire Never Surrender 803D9 have proved themselves to both being Brangus breed hall of famers with what their "First Son" has already accomplished.

Lot 87 - DMR KINGDOM 535G45

SELLING FULL POSSESSION AND FULL SEMEN INTEREST ALONG WITH 500 UNITS OF SEMEN.

DMR Kingdom 535G45 is not even close to approaching his prime. With that said, Kingdom is not even 4 years of age yet and already has over 200 calves in the Brangus registry. Kingdom calves have turned heads because they come small but grow into very stout weaners and yearlings. His first daughters and sons have been both pasture favorites and popular in the sale ring.

With as many calves birth weights that have been take and recorded and in many contemporizes as well giving him a 72% accuracy for a top 10% BW EPD. Go to sleep at night calving your heifers to Kingdom for sure.

DDF

Selling 25 straws of semen in packages of 5 straws each. This is the second offering of three allotments of Sho Time semen to sell in 2023. The first 25 units sold at Mound Creeks Spring 23' Bull Sale for \$2,000 per straw to Plainview Farms (Mr. Brent Smith & Family). The third allotment will be sold at the September 23' Southern Harvest Sale at Wiley in Ranch.

MC Sho Time 313H30 is truly one of the "great looking" bulls in Brangus breed history. For the ones that saw him at Mound Creek's 2022 Bull Sale, and when Mound Creek decided him to be their "choice to keep" many praised his superior structure and over all confirmation from foot to nose.

Of course everyone is aware of Sho Time's perfect dam 313A sold in this very sale last year for a record setting \$120,000. The first Sho Time calves are on the ground and are looking very, very promising!

Selling 25 straws of semen in packages of 5 straws each. This is the only second offering of semen on Papillon 458G since he sold in the 2021 Blackwater Bull Sale. 25 units sold last year in this sale for an average of \$1,800 per straw to Plainview Farms (Mr. Brent Smith & Family) and Herndon Farms.

BWCC Papillon 458G is second to none in his EPD and breed index ranking in the top 35% or better for 15 EPD traits and indexes including top 1% REA, top 2% IMF, top 5% CED and YW and top 10% BW. The Brangus breed has seen very few herd sires that have proved themselves this young to have calves that come easy and small and grow to powerful yearlings.

BWCC Papillon 458G has already generated 10's of thousands of revenue in is semen, embryos and offspring and he is still 3 years of age. With that said, one of his first sons Inferno 468J52 sold as a 13 month old in Quail Valley's Fall Bull Sale for \$30,000 to Tony Gowins. To be a still three and already have a \$30,000 son out producing is truly amazing!

PE to SR Paradigm 135/7 (20175656) 4/1/23 to Sale Day.

001F3 is out of the heart of donor lines. Her ranking in the top 20% for Milk and top 25% for REA makes her an incredible mating peace to cross with Santa Gertrudis breed's top sires. Her sire HARCO T958 at one time probably had more son's breeding cows in purebred and commercial herds across the country than any other Santa Gertrudis sire in history.

23E5 is a Star 5 "Super American" that was produced by embryo transfer by crossing 777 Vegas 411 to one of the premier Salacoa Valley Farms Brangus donor cows 23Z58. 23Z58 produced over 50 registered Brangus calves generating over \$150,000 in combined progeny revenue. Vegas has generated 100's of thousands of dollars in revenue as well and probably has produced more show champions of both bulls and females than in bull in breed history.

468E28 is a product of something you rarely see in any program. She was a result of a flush mating of one of the best Brangus donor cows of her time MS BRINKS NEW ERA 468P22 and King Ranch 97/10 who is the bull that made the DNA performance shift in the Santa Gertrudis breed reality. With that said, if you are in the Santa Gertrudis business and you want to bring new genetics in the breed then you need to consider 468E28.

115A: Natural heifer calf born 4/27/23-Sired by Paradigm 135/7, 468L21 Reg#20230369 3/4 Santa Gertrudis x 1/4 Brangus

23H45 is a Star 5 "Super American". Her yearling scan blew the charts of ratioing 123% for %IMF and 113% for REA. She is out of the 23 cow family which is the most prominent Brangus cow line in the SVF herd. Her intro EPD panel is interesting after her yearling scan data was added ranking her in the top 5% for REA and top 4% for Marbling. 23H45 is for sure that should be used in a new generation Santa Gertrudis grade up program.

Palpated safe in calf to calve this Fall.

PE to SR Paradigm 135/7 (20175656) 12/2/22-5/15/23, SR Marksman 33/19 (20190165) 12/2/22-1/20/23, KR 301/15 (20153444) 12/2/22-5/15/23, KR395/18 (20183520) 12/2/22-5/15/23.

881/19 is the Star 5 50% Santa Gertrudis x 50% Red Angus King Ranch donor dam of the high selling Santa Gertrudis bull QVF 881J2 who sold in the 2023 Wiley Ranch Spring Bull Sale for \$10,500 to Tinney Farms. She is a member of the "Magnificent 7" pick of 7 females from the entire King Ranch herd that sold for \$75,000 in Houston Super Sale. She ranks in the top 10% for 10 EPD traits and indexes including a top 3% Marbling and top 5% REA.

Palpated safe in calf to calve this Fall.

Lot 125 - SR PARADIGM 135/7

Selling Full Possession and Full Semen Interest. There will be an allotment of semen offered with the purchase that will be given at sale time. Quail Valley Farms will only keep semen for in herd use only. SR Paradigm 135/7 is truly one of the most impactful herd sires in modern day Santa Gertrudis breed history. He is 5 years old in the heart of his production life and has already 203 registered calves recorded in the breed registry. With that said, many of his daughters and sons have topped sales both here at Quail Valley and across the country.

It is no surprise that SR Paradigm 135/7 has produced as he has being an own son of KR CATALYST 531/15 and out of the Strait Ranches matriarch donor cow P H WELDER 7/342.

SR Paradigm 135/7 has a huge representation of calves in this year's to day sale. His calves come small and grow quick to project a impressive phenotype.

CB MS Masterpiece 63J9 is sired by one the breed's most proven and exciting young sires. CB Masterpiece 2051F who recently sold half interest and possession to Gene Plus Partners Schmidt Brangus and Lake Majestik for \$38,000. Masterpiece's progeny proven EPDs with more than 314 progeny on the ground, indicate 14 EPD traits ranking in the breed's top 20% or greater. He is a near perfect combination of calving ease, elite growth and carcass with big Indexes. 63J9's dam is the impressive young donor CB MS Icon 63 F purchased in the Fall of 2022 CDP sale for \$16,000 by T3 and Brian Stover. 63F's heifer calf at side in that same sale by Growth Fund sold to A.C.E. for \$37,000. A full brother to 63J9 sold to Bar X for \$14,000 as a yearling bull last fall. We have 8 maternal sib females retained in the herd and 5 maternal sibs have averaged over \$14,000 in past sales.

63J9 is long sided, big bodied and right sized. Her EPD profile matches her phenotypic excellence with elite growth, light birth and big carcass and Index values. In fact she posts 14 EPD traits ranking in the breed's top 35% or greater.

313J7 direct daughter of BWCC Ms Rugby 313F, a female who commanded \$39,000 in the Genetic Edge sale has all the pieces of a donor in the making. Her elite center body mass, combined with her level design and fluid structure make her a female that possesses the look needed to produce seedstock that will make a lasting impact for years to come. At yearling time she excelled her contemporaries scanning nearly a 14 inch REA with a 7.25 for IMF. This heifer from the famous 313 cow family and sired by a past high seller SB The Godfather 804G1 offers the performance demanded by purebred and commercial industry alike while maintaining plenty of outcross mating options.

Selling 2/3 embryo interest and full possession, Scamarto Brangus is retaining 1/3 embryo interest.

The MSC Crosscut 392J10 progeny have not only shaped the Scamarto Brangus program but his impact has been evident across the country, consistently siring cattle with functionality, carcass strength and longevity. This maternal sister to 313J7, a sale highlight who will no doubt have plenty of fans on sale day is also a granddaughter from a past high selling female RBM Ms Special Forces 313A who sold for \$120,000 last June. The influence of the 313 cow family in the breed is seemingly growing by the day, this a great opportunity to add a piece from the hottest cow family in the Brangus breed!!

 19K3 is exactly the definition of the top part of the SVF breeding program over the last 5 years. The cross of Never Surrender 803D9 x Stonewall 222W6 is one for the books. With that said, 19K3 is a very moderate but powerful female that performed perfectly weaning over 600 lbs., growing to over 900 lbs. at yearling, scanning over a 11" REA and over 5 score for IMF. Her sire Never Surrender 803D9 has numerous daughters just like 19K3 in donor programs all across the country.

AI'd 5/14/23 to DMR Dutton 331H8 (UB10462638).
30K3 - The breed is no stranger to 30D, but check out a new twist with this Center Section daughter. She is long and deep with all the broodiness of 30D with added power from Center Section. She ranks in the breed's top 3% for WW and YW, 4% REA and 10% IMF. This puts her in the top 2% of the breed for Term Index, but she still excels in fertility traits with top 10% Heifer Preg, 20% Stay, and better than breed average and Breed Back. 30D progeny in the T3 herd are averaging over \$12,000 per head and this heifer is as good as any of them.

30K15- This Never Surrender 803D9 daughter has been a standout her entire life. She is one of those that when you drive in the pasture you say "what is that". With that said, she has been a top performer as well weaning at 781 lbs. and developing to a yearling weight of 1175 lbs. and scanning a whopping 13.08" REA and 5.37 IMF.

30K15's donor dam 30H3 is currently owned by Tony Gowins and incredibly already has 15 recorded calves in the IBBA registry as just a 3 year old. 30H3 is an own daughter of the legendary T3 MS Three D 30D that is still producing at Herndon Farms, but who has already been written in history as one of the most influential Brangus cows in the Brangus breed's history.

Here is a real powerhouse of a female here hailing from the performance packed 129 cow family and by the Perfect Fit bull who packs some power as well. Her donor dam was our choice out of the Genetic Edge sale in 2021 from Pennridge and she has done a great job producing stout made cattle that smash the scales. This heifer is as long as a well rope and has that extra bit of bone and structure. She also boasts strong EPD figures with Top 1% in WW and YW as well as Top 5% or better for SC, REA, Heifer Pregnancy and Terminal Index. A unique pedigree and individual that will be exciting to see how she produces in the future.

708K is very attractive DMR Kingdom 535G45 daughter who excels in her depth of body and feminine, broody character. She is a perfect example of what a Brangus female should look like. Like her phenotype she as well writes a very attractive EPD and breed index panel. Impressively she writes and ranks in the top 25% for CED and BW spreading to a top 10% for YW and carries a top 10% REA and top 15% IMF along with a top 35% Milk. 708K's phenotype and breeding canvass EPD'S set her up to possibly be a new cow family donor in many progressive Brangus programs.

PICK OF ET HEIFER CALVES - We are offering the pick from three ET heifer calves that are currently being raised at the DS Farm. They will be 4 months at sale time and will be ready for delivery in August. All three heifers are out of DS MS EMPIRE 198J who was the high selling open heifer in the 2022 ELITE Brangus Female Sale. Selling to Mia Wiley from Effie, Louisiana for \$20,000, 198J has gone on to turn heads in the show ring winning her share of awards including the prestigious Louisiana State University State Heifer Show. There are three bull ET bull calves the same age that are being raised on the farm also and the buyer can have the option to select from them as well.

198L3 already ranks in the top 35% or better for 11 EPD traits and indexes before performance has been taken. Her sire BWCC Hot Shot 192D31 has many daughters in donor programs across the country.

Dam of Lots 203A, 203B, 203C - DS MS EMPIRE 198J

This eye catching Empire daughter has the look cows should have. She is big bodied with plenty of bone and all the look you want. Her balanced EPD's gives plenty of flexibility to mate to many of the leading bulls today. She rounds this out with an easy keeping design with big fertility numbers recording top 15% HP and 25% Fert Index. Her mother is a true donor producing many full and maternal sibs to this heifer that have been retained in our herd. Her full sister sold for \$20,000 in the 2022 TBBA sale. She is the kind to produce highly marketable sons and daughters for any herd.

Ms Salacoa Hollywood 803C7 is a maternal half sister to the prepotent Never Surrender of Salacoa 803D9, who is still walking the pastures for ACE and commanding top "Sale Ring Value". He was purchased in 2017 Salacoa Valley Sale for \$50,000, and while riding with Ricky Cleveland the other day he stated "Yeah, and he's made a million since then". She has a unique genetic profile with added fertility, longevity, and maintenance having 1% Heifer pregnancy, 10% Fertility Index, 20% Stayability, and 30% Mature Cow Weight. She is a perfect candidate for the powerhouse bulls in the population today.

Natural calf sired by VF MS BLACK TOP 803K, the good Mile Marker son who adds calving ease, carcass, and fertility in this mating. Black Top is owned by River Bend Farms, Whitley Cattle Company, and ACE.

Lot 214 - SUHN'S MISS THREE D 30F12

Donor Cow -Suhn's Ms Three D 30F12 is extremely long bodied and very moderate daughter of Three D 302A and out of the \$60,000 Suhn's Ms Patton 30X6 that has done so much for Dragging M and has 142 calves in the Registry and now resides at Villa Ranch. 30F12 has done a tremendous job for us in her short stay at Cross N, her first 4 calves averaged over \$10,000, her 30J2 Monument son sold to T3 for \$13,500 in the 2022 Ace at Wiley's sale and her 30J3 Monument daughter sold to Wiley Ranch at the 2022 Genetic Edge sale in Houston last year and has become a Donor in their program. 30F12 has worked well to Never Surrender, Monument, Epic, Triple Crown and Santiago. We have calves on the ground now out of Big Town, Modelo & Blue Blood that are amazing. This is one we surly don't want to part with but we told Richard to pick what he wanted and with good reason he went straight to 30F12. She has not even begun to reach her prime as a 5 year old. 30F12 has 8 traits in the top 35%, 10% CED, BW, HP, 20% WW, ST. 25% YW. 35% REA, NC and came with a very moderate BW of 65 lbs. and has passed it on to all her progeny so far. She will work very well to the Power bulls in the breed today.

Palpated safe in calf to the \$100,000 Final Time 313H2.

CHOICE FLUSH PICK OF TWO RECORD SETTING DONORS - This is a unique opportunity to be in on genetics of this caliber so early in an ownership. Last June, at this very sale, the Genetic Partners teamed up to purchase RBM MS Special Forces 313A for a modern day record of \$125,000. Then in March, at the Genetic Edge Sale, the team waded in on Ms DMR Coronado 415A7 to top the sale at \$57,000. Guaranteeing 10 viable embryos, through In Vitro Fertilization. The procedure will be preformed at Phillips in Madisonville, TX at the expense of the buyer. If the sire of choice is owned by Genetic Partners the semen is of no cost to the buyer. If the sire of choice is not owned by Genetic Partners, the cost is to the buyer. In the case 10 viable embryos are not produced in the first OPU the cost of the second OPU will be to the seller. In the case more than 10 viable embryos are made on the first OPU the buyer has the option to purchase additional embryos at the pro-rated price.

Ms DMR Coronado 415A7 is a unique breeding piece as her genomic panel reads much differently than her choice of this pick lot. With 1% CED and 2% BW GE-EPD's and 4% Milk accompanied by 30% Heifer Pregnancy proves there is fertility built into the multi generational donor pedigree. Take a look at her performance suite of GE-EPD's. She will mate well with the powerhouse herd bulls available today. If you are in the Brangus breed, then you know the story of 415A7 and her Breed Matriarch dam, Ms Brinks Brightside 415R23, and granddam Ms Brinks Vaquero 415G. All have had an amazing impact on the Breed. Being the dam of DMR Domain 415G35, who is owned by Las Palomas Ranch and Draggin' M, puts her in the dams of herd sires book as well. She has generated close to \$430,000 before selling for \$57,000, with \$147,000 being last fall. Her granddam sold an excess of \$40,000. Within the first 3 females on the bottom side has generated in excess of \$1M. Talk about "Sale Ring Value"!

PE to KR651/18 Chosen One (20183702) 1/17/23-3/29/23.

78J is a deep bodied broody Santa Gertrudis female that lines up genetics in her pedigree of proven Santa Gertrudis programs like King Ranch, Red Doc Farm and Strait. On the topside of her pedigree paternal grand sire King Ranch 189/11 is one of the first carcass sires that was proven in the breed. His daughters and sons have made a huge influence across the breed. On the bottom side her maternal grand sire Mason 0/72 was the bed rock for Strait ranch. 100's of Mason daughters and sons are still producing and making a difference in the breed. Her dam SR 78/7 has two daughters retained in the herd. 78J is very balanced genetically as well, ranking the top 35% for 10 EPO traits and indexes. Confirmed bred to KR Chosen One 651/18.

AI'd 2/3/23 to KR651/18 Chosen One (20183702). PE to QVF Paradigm 60J15 (20215803) 2/14/23-5/15/23, QVF X Factor 1201J2 (20215852) 2/14/23-5/15/23, QVF X Factor 1351J2 (20215855) 2/14/23-5/15/23, QVF Legacy 82J (20215957) 2/14/23-5/15/23.

634J4 is one of two full sisters being offered-Lots 220 (634J11) and Lot 221 (634J4). These sisters are out of one of QVF's feature donors SR 634/G2 who sells in the mature cow sale on Friday June 9 as Lot 95. 634/G2 has already 20 progeny in the breed registry as a 3 year and 9 month old female. With that said, she already has daughters and sons sold in to many herds in the breed. Her dam Silva 634/7 is one of the matriarch donors of modern day. Silva 634/7 and her daughters, like Silva 915 and Silva 912 who both have daughters in this sale, have combined generated over \$500,000 in lifetime revenue. 634J11 ranks in the top 1% for Marbling and top 10% for BW and top 35% for 12 EPD traits and indexes total. Palpated safe in calf.

Sire of Lots 220 & 221 - SR IMPACT 30/F2

003K is definitely a donor candidate. Her incredible EPD profile is very hard to build through selection breeding. With that said, 003K ranks in the top 1% for YW and REA, top 4% for Marbling and top 15% for Milk. Her dam QVF 003G4 was the \$34,000 high selling Santa Gertrudis bred heifer in the 2021 ELITE female sale. She has gone on to produce breed leading offspring in the Wiley Ranch herd. Her sire KR Chosen One 651/18 is probably the most influential herd sire in recent Santa Gertrudis breed history having already sired over 200+ registered calves as only a 5 year old.

Tinney Farms is retaining one IVF collection at the buyers convenience resulting in 6 embryos or greater.

23K40 is a Star 5 "Super American" 3/4 Santa Gertrudis x 1/4 Brangus. 23K40 is from a designed plan that was to take the best in Salacoa Valley Farms Brangus and introduce them into the Santa Gertrudis breed through the Star 5 grade up program. With that said, the 23 cow family is one of the most prolific cow families in Salacoa Valley history. Her granddam was a donor that produced over \$75,000 in progeny. Of course her maternal grandsire 777 Vegas 411 needs know introduction is being one of the top sires in modern day breed history. Her sire Briggs San Roque146G4 was a high selling bull at Briggs annual bull sale. Being 23K40 is 3/4 Santa Gertrudis all of her calves from registered purebred Santa Gertrudis sires will be labeled first generation Santa Gertrudis purebred. Check out 23K40's untouchable balanced EPDs as well! She ranks in the top 35% or better for 13 of the breed EPD traits and indexes including top 10% for Milk. Unheard of profile! This is a unique opportunity to introduce new but decades proven genetics to the breed!

AI'd 5/23/23 to KR651/18 Chosen One (20183702).

45K2 is truly the closest we can get to as a finished product in the cattle business! She puts everything together the Santa Gertrudis breed needs to be industry relevant. She ranks in the top 30% or better for 13 or the 15 EPD traits and top 5% for all three breed indexes. She scanned an adjusted 6.57 IMF and a 1.2 REA/CWT. With that said, 45K2's donor dam QVF MS Chosen One 45H2 (currently owned by Hefte Ranch) is a breed record holder herself scanning a 9.27 IMF respectfully.

82K7 scanned a very "breed topping" adjusted IMF score of 8.29 and a 1.2 REA/CWT. The reason for her top scan was by design breeding. Her dam QVF MS Chosen One 82H is #1 in breed history and record holding Santa Gertrudis animal for IMF score. 82H scanned a 10.4 IMF with just .2 of back fat and a 1.2 REA/CWT.

209K26 is truly a "Head Turner" female when you see her in person. She is one that you drive in the pasture and you immediately say, "who is that". 209K26 does the same thing on paper when you study her EPD profile. She ranks in the top 15% or better for 12 of the 15 measurable EPD traits and indexes including top 1% IMF and top 4% REA. 209K26 scanned an adjusted 7.24 IMF at yearling time ratioing 116%. Her dam 209H4 was an own daughter of the \$52,000 pick of the King Ranch herd that sold to N-N in the Houston Sale the same time the Chosen One pick sold. With that said, 209H4 tragically died unexpectedly and 209K26 is the only offspring we will have to offer from her. 209K26 definitely needs to be a donor for a progressive Santa Gertrudis ranch.

468K27 is 1/4 Santa Gertrudis x 3/4 Brangus. Her Santa Gertrudis sired calves will be Star 5 first cross and as far as the SGBI registry will be entered in as 50% SG on the first cross, but being out of the 777 Vegas 411 Star 5 "Super American" daughter we kept her for her interesting breeding merit. Her phenotype brings a lot to the table for a progressive Santa Gertrudis breeder to use to breed a "Purple Banner Star 5" show champion as well. We will find the real progressive cowboys and cowgirls on this one.

535K is a Star 5 "Super American" 3/4 Santa Gertrudis x 1/4 Brangus. She was a designed breeding grade up from one of Salacoa Valley's top Brangus cow families and using the best Santa Gertrudis sires available. With that said, all of her progeny sired by a registered purebred Santa Gertrudis sire will be registered as first generation 7/8's purebred. Her adjusted yearling IMF scan of 5.27 with .2 of back fat and 11.09 REA for sure sets her up of being injected into the breed.

4134K is one of the best combined phenotype and performance females we have ever produced at Tinney Farms. With that said, that is a big statement with all of the champion Santa Gertrudis females that we have produced in the past 30+ years. We shifted with the breed many year's ago and really started putting a strong emphasis on performance testing and measuring and were the first in the breed to be 100% DNA herd tested. 4134K is what we have been striving for in our production model "Superior Performance with Superior Phenotype". She is an own daughter of KR Chosen One 651/18 and out of one of our best "Hatchet Man" 921 daughters. It really hurts to sell 4134K but we wanted to bring our ELITE to this sale.

Tinney Farms is retaining one IVF collection at the buyers convenience resulting in 6 embryos or greater.

1452K1 is a full sister to four other QVF heifers that have previous sold in the ELITE heifer sale averaging \$9,500. With that said, she is out of the \$100,000+ revenue generating donor cow HARCO 1452 and sired by the \$200,000+ revenue generating sire KR Data Driven 143/17. She ranks in the top 35% or better for 10 EPD traits and indexes including top 15% YW, REA and top 25% Marbling. She will be AI exposed to KR Chosen One 651/18 before the sale and the AI date will be given.

Lot 261 - MF MS DATA DRIVEN 1452K1

IVF FLUSH GUARANTEEING 10 EMBRYOS

- Harris 1524 is truly one of the great donor cows in breed history. She first came on the breed's radar by raising as a heifer current breed leading and AI herd sire Harris 190E currently owned by Vesper Ranch. 1524 went on to make her mark in the Briggs Ranch herd and generated tens of thousands of dollars in revenue. She then sold to Quail Valley Farms in the Houston sale and went on to produce tens of thousands more dollars in progeny revenue. We were fortunate to purchase her in the last year's sale and have decided to offer one more flush to the public. There will be no more offerings in flushes after this.

Lot 262 - HARRIS FARMS 1524

MILK is a EPD trait that is hard to build in any herd because of the length of time it takes to breed, birth and measure. With that said, Harris 1524 is a living trait leader in Milk ranking in the top 1% and posting a EPD of "21". We think this is a trait the breed really needs to work on reflecting to the commercial and purebred industry. You can purchase this flush and be guaranteed not to give up any phenotype and at the same time bring any popular herd sires Milk numbers into industry acceptance in one mating.

Terms & Conditions

Bidding

Each animal will be sold to the highest bidder without reserve. The auctioneer will settle any disputes as to bids, and his decision on such matters shall be final.

Terms

Each animal becomes the risk of the purchaser as soon as sold, but it shall be the obligation of the seller to see that animals are fed and cared for until loaded for shipment or until the expiration of 48 hours after the sale, whichever occurs sooner. After 48 hours a maintenance fee of \$5.00 per day will be assessed until pickup unless the owner or AMS arranges shipment.

Sight Unseen Purchases

Buyers may purchase females or bulls through the owners or American Marketing Service personnel at auction without viewing the cattle. For sight unseen purchases, the buyer has the right of inspection at the time of delivery. If the animal is deemed unsatisfactory, it may be reloaded on the delivery truck and returned to female or bull owners ranch at no obligation to the buyer. All transportation expenses will be the responsibility of the seller. If the animal is deemed unsatisfactory within one week of the purchase, the buyer may at their expense, return the animal to the female owner's ranch for a full refund of the purchase price.

Certificate of Registry

A transferred certificate of registry will be furnished to the purchaser for each registered animal once proper settlement has been made.

Health

Health papers suitable for interstate shipment will be furnished on all animals.

Announcements

Any changes from the information of any kind in this catalog will be provided in a sale day supplement sheet or announced from the auction block and such information shall take precedence over cataloged information.

Breeding Guarantee

1. All animals are guaranteed to be breeders with the exception of: a) calves under 12 months of age; b) animals shown by purchaser after sale in which the guarantee (if any) shall be between the seller and the buyer; c) injury or disease occurring after the sale; d) gross negligence or willful misconduct on the part of the purchaser; e) death by any reason.
2. Safe in calf females have been examined by competent personnel and are so guaranteed.
3. Exposed females have been exposed but are not guaranteed to be safe in calf.
4. Open females have not been served and are so guaranteed.
5. Donor Females. a) A female is not guaranteed to be a breeder after the date of the sale when that female is to be used or attempted to be used, in an embryo transfer program, unless by separate agreement between the buyer and seller.

b) Embryo transfer guarantee. Even though it is possible some of the female lots have worked successfully in embryo transfer programs in the past, and should in the future, there is no guarantee or warranty on future embryo production of any lot. Flush records are available upon request.

6. This is not a life insurance policy. Seller will not replace a dead animal if it is killed or dies for any reason. We would suggest that normal care still needs to be exercised toward these animals and that yearling bulls should be fed so they can continue to develop properly.

Pregnancy Determination

The registered females in this sale noted safe in calf have been determined pregnant by physical palpation or ultrasound technology. Our best estimate of service sire will be given in the case of the females with both an A.I. sire and a natural breeding sire.

Options and Privileges of Return or Adjustment

1. All claims for adjustment or refund must be made in writing within six months of the sale date.
2. In the event an animal is claimed to be a non-breeder, the animal may be returned to owner's ranch, if in good condition and complying with the health requirements of their state. The seller shall be entitled to a six-month trial following the return of the animal in which to prove that the animal is a breeder. If at the end of six months the seller is unable to prove the animal is a breeder, the seller shall at the option of the buyer replace the animal with another of equal value or issue a credit for the initial selling price. If the seller proves the animal to be a breeder, it shall be the obligation of the purchaser to take delivery of the animal and pay all expenses incurred for transportation.
3. If an animal is sold and at a later date proves not to be eligible for registration under association rules, the seller shall be obligated to make a satisfactory adjustment on the purchase price to the buyer, refund the purchase price or issue a credit for the initial selling price upon the return of the animal to the farm of the seller.
4. If an animal is sold and through DNA is proven to have incorrect parentage as represented by the certificate of registration, and for which the parentage can be determined, the seller shall be obligated to make a satisfactory adjustment on the purchase price to the buyer, refund the purchase price or issue a credit for the initial selling price upon the return of the animal to the farm of the seller.

Rights and Obligations

1. The above terms and conditions of sale shall constitute a contract between the buyer and seller of each animal and shall be equally binding on both. Other than the guarantees and warranties stated above, no other warranties or guarantees are expressed or implied. Each sale or resale of an animal constitutes a separate transaction.
2. Neither female or American Marketing Service nor any other person connected with the management of the sale, assumes any liability, legal or otherwise.
